From Cart
Click upload image link
Go to widget with print menu expanded & upload image popup open; Find is replaced with Continue; Continue is not clickable. No result is showing below.
Make image selections
Yes
Continue becomes clickable
Change parameters other than print?
Yes
Continue becomes Find
Clicking Find produces fresh MOD (with image if print selections intact after parameter changes). Original incomplete MOD still in Cart. Can Add, Save, Share with or without image.
No
Clicking Continue displays MOD with quote from Cart as a result, but w/out Godzilla. "Quoted without image" goes away. Other quotes on this MOD are updated with image details. Button turns into disabled Find. In place of Add button is 2d Continue button.
No
Change parameters other than print?
Yes
Continue becomes Find
Clicking Find produces fresh MOD without image. Original incomplete MOD still in Cart. Image may or may not be added to new MOD. Can Add, Save, Share with or without image.
No
Steady state
Change parameters other than print?
Yes
Find becomes clickable.
Clicking Find produces fresh MOD (with image if print selections intact after parameter changes). Original MOD still in Cart. (With image from prior step?) Can Add, Save, Share with or without image.
No
Clicking 2d Continue brings you to cart, ready to checkout.
Question: Which "Continue" button updates the MOD in the cart? The first or second? It matters to the user who changes widget parameters after the first Continue is clicked.
