- Artwork appears on your bag more than 1 time
- The position of the artwork will vary from bag to bag
- Your most cost effective printing option

Let's Go

Registered

- Multi-color and 1 color artwork printing.
- A spot color is a PMS color. If you need to match particular colors, perhaps your logo color(s), and your budget is limited, spot colors are your best choice.
- CMYK is 4 color process printing that reproduces finished full-color artwork and photographs.
- You determine the size and placement of your artwork.
- Artwork is printed once on your bag in the same location
- An eyepot is a small rectangle that usually gets printed in one corner of the bag. The eyepot helps to assure the accuracy of the bag during manufacturing. Not all bags need eyespots.

The image shows a design template for a plastic bag. The bag is light blue with a dashed pink border. At the top, there is a logo for 'the YIMCA' featuring a stylized 'Y' in orange and teal. Below the logo, the text 'Workout Gear' is written in a teal font. A pink circular icon with a refresh symbol is positioned above the text. In the center of the bag, there is a black rectangular warning label with white text. The label contains three paragraphs of text in English, Spanish, and French. To the left of the bag, there is a small black rectangle labeled 'EYESPOT'. At the bottom left of the bag, there is a pink rectangular area labeled 'PRINTABLE AREA'. On the right side of the bag, there is a white panel titled 'Format Image'. This panel contains a 'Size' section with input fields for '5' and '2' inches, and a 'Color' section with four color swatches: black, white, orange, and teal. Below the color swatches are two buttons: one with a refresh icon and one with a checkmark icon.
