CHICOPEE® INDUSTRIAL WIPERS

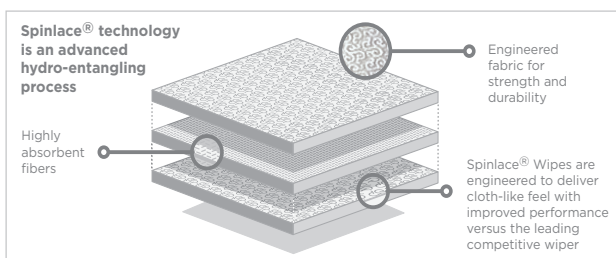

Chicopee® has the broadest line of industrial wipers engineered to deliver the strength and efficiency you need, from the removal of grease and grime on machinery, to fingerprints on a chrome grill. Whether you are looking to support a 5S system, adopt lean manufacturing methods or trying to create a more sustainable environment through the decrease of waste, water and energy consumption in the workplace, Chicopee offers the right wiper for your cleaning needs.

VERACLEAN®

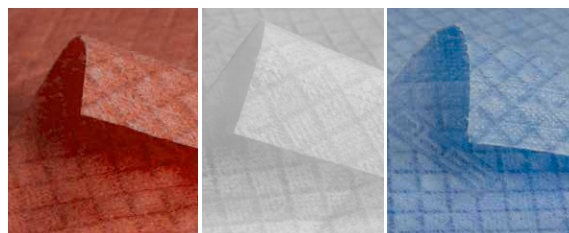

Veraclean Wipers are soft and durable, ideal for finishing touches and removing unseen residue. They are most often used in critical environments and are ultra-soft and thick wipers, which effortlessly remove remaining residue, dirt particles and fingerprints not necessarily visible to the eye.

DURAWIPE®

Engineered with Spinlace® technology, a unique triple-layer construction, Durawipe Industrial Wipers have enhanced performance and thickness which allows for superior oil and water absorbency. They are tear resistant and designed to wash and use repeatedly.
