Choose Printing Method:

Registered ?

- Multi-color and 1 color artwork printing.
- A spot color is a PMS color. If you need to match particular colors, perhaps your logo color(s), and your budget is limited, spot colors are your best choice.
- CMYK is 4 color process printing that reproduces finished full-color artwork and photographs.
- You determine the size and placement of your artwork.
- Artwork is printed once on your bag in the same location
- An eyespot is a small rectangle that usually gets printed in one corner of the bag. The eyespot helps to assure the accuracy of the bag during manufacturing. Not all bags need eyespots.
