Choose Printing Method:

Registered ?

- Multi-color and 1 color artwork printing.
- A spot color is a PMS color. If you need to match particular colors, perhaps your logo color(s), and your budget is limited, spot colors are your best choice.
- CMYK is 4 color process printing that reproduces finished full-color artwork and photographs.
- You determine the size and placement of your artwork.
- Artwork is printed once on your bag in the same location
- An eyespot is a small rectangle that usually gets printed in one corner of the bag. The eyespot helps to assure the accuracy of the bag during manufacturing. Not all bags need eyespots.

The image shows a digital design tool interface for creating a worksheet. The main workspace is a light blue rectangle with a dashed pink border, labeled 'PRINTABLE AREA' in a pink box at the bottom left. Inside this area, there's a header section with a logo consisting of an orange 'Y' and a green triangle, with the text 'the' and 'YMCA' next to it. Below the logo is a title 'Workout Gear' in a large, bold, black font. Underneath the title are three paragraphs of text in different languages: English, Spanish, and French. Each paragraph starts with a bolded word: 'WARNING', 'ADVERTENCIA', and 'AVERTISSEMENT'. To the right of the main workspace, there's a 'Format Text' panel. This panel has a title 'Format Text' and several controls: a font dropdown menu set to 'Helvetica', a font size input set to '12', and a color selection button. Below these are buttons for text alignment (left, center, right), bold (B), italic (I), and underline (U). At the bottom of the panel are two large buttons: one with a circular arrow icon (undo) and one with a checkmark icon (confirm). In the bottom left corner of the workspace, there's a small black rectangle labeled 'EYESPOT' in a blue box.
